CASES OF NOTE

SPECIAL MENTION :

Two patients need special mention.

(1) Rishabh Vikram Vasave, a 15 month old boy was operated for a tumour on his right arm— ATYPICAL NEOPLASTIC LESION. He was operated at minimal cost. At follow up, child was doing well. PHOTO ATTACHED.

(2) Riya Babulal Padavi with non-malignant SACROCOCCYGEAL TERRATOMA. This child was born prematurely and treated in the district Hospital N.I.C.U. The child has developed RETIONPATHY OF PREMATURITY GRADE 5 WITH LENTICULAR OPACITY. R. O.P. screening WAS DONE THROUGH EFFORTS OF Adarsh Pratishthan. We has referred the child to NIRVANA NETRALAYA at Surat and negotiations ARE ON FOR SURGERY TO SALVAGE VISION. Hopefully she will be operated soon. (PHOTO ATTACHED).
